Karen: I am told that you are the primary person with web edit rights and Terri is your backup. I can give you the basic information on the location of the facilities

Elite Spice	1415 Magellan Road	Hanover	MD
Elite Spice	7151 Montevideo Road	Jessup	MD
Fuchs North America	3800 Hampstead Mexico Road	Hampstead	MD
Trinity Sterile	201 Kiley Drive	Salisbury	MD

American Contract Systems	4040 Jacksons Pointe C	Zelienople	PA
B. Braun Medical	901 Marcon Boulevard	Allentown	PA
Cosmed	2205 East 33rd Street	Erie	PA
Sterilization Services of Virginia	5674 Eastport Boulevard	Richmond	VA

Someone will have to go into Google Earth to help you find nearby streets/schools/etc. information. Jessie can help if available.

Hello all,

I am just getting back today and I know that there was a deadline on Friday, June 3, that was met – thank you!!!

As you can see we have another deadline of noon tomorrow to upload the below highlighted information. I am not sure if anyone other than myself has access to the webpages. If not, please forward requested information to me and I will upload to webpages.

Thanks, Karen

**Subject:** Update Alt Text for Each EtO Map

Task: Deadline Noon (eastern) Tuesday, 6/7/2022 – Complete Alt Text Template for EtO Facility Maps

To be posted on the web, each map requires “alt text” to assure it provides helpful information to visually impaired users. We have developed template language for the alt-text but need critical help from each regional POC to complete the following 2 items:

1. Please replace the highlighted yellow text for each facility in your region. Please note - This bullet can be no more than 512 characters!
2. Upload a word document containing your alt text for each map into the appropriate regional subfolder by noon eastern tomorrow. We recommend having one word document per map and uploading it into the facility specific folder.

**Draft Template Alt. Text for each community map.**

This map shows EPA’s estimate of lifetime cancer risks from breathing ethylene oxide near industry name located at add address. Estimated cancer risk decreases with distance from the facility. Nearest the facility, the estimated lifetime cancer risk is maximum risk for this map in a million. This drops to 100 in a million and extends include local street names/landmarks/schools to the north, south, east and west.
